

# National Fire Plan

## Jarbridge Receives New Fire Engine

### Nevada 2002

The Humboldt-Toiyabe National Forest used National Fire Plan funds to provide a new fire truck to the community of Jarbidge, Nevada. In this cooperative effort with the state, the Nevada Division of Forestry provided the seasonal personnel to operate the truck this summer. The truck is equipped with 125-gallon tank, and will serve as an initial attack vehicle.

*Humboldt-Toiyabe NF Supervisor Bob Vaught, NV Governor Kenny Guinn, Nevada Regional Forester Gary Zunino and Nevada State Forester Steve Robinson in front of Jarbridge's new fire engine.*

Elko County Commissioner Nolan Lloyd thanked the state and federal agencies for their tremendous cooperation and added, *"Having something like this truck is priceless."*

Jarbidge is one of Nevada's "at risk" communities, located in a steep canyon and completely surrounded by national forest system lands.
